about

In 2012, **to the point architects** was the result of a long term collaboration between Chrysostomos Kypritzis and Nestoras Kanellos. Making use of the experience each of us had gained as individuals, was the main purpose of this partnership. Our belief in multidisciplinary collaborations, along with the desire to excel in both constructional and designing level has been our guide throughout our professional career. Our goal and prime concern is to focus on the specifics of each project and to meet the needs of each client while providing high standard quality.

Since 2015, to the point architects have launched their branch studios in Naxos due to their expanding clientele in Cyclades in the field of touristic real estate properties.
